Active ageing through active citizenship

The Project organisations strive to provide the best possible Service to their communities and wish to help alleviate the harshness of the current economic crisis. By upgrading their adult education services, promoting active ageing, and strengthening active citizenship we hope in the process to assist re-entry to the labour market.

Objectives

- 1. To improve the competences and skills of adult educators to reflect the current economic crisis.*
- 2. To equip educators and learners with appropriate resources allowing them engage in active ageing through meaningful involvement in society, especially through volunteering*
- 3. To introduce innovative approaches and teaching methods to incorporate into the adult education offered*
- 4. To provide the learners with professional skills and competences to better serve local communities*
- 5. To contribute to European integration by collaboration with partners and sharing best practice*

Dates

Septembre 2012 - August 2014
